DETAILED ACTION

1. Amendment and response filed by applicants dated Sept. 20, 2004 have been entered and considered carefully. Claims 1-21, 23, and newly added claims 24-33 are pending.

2. Applicants have deleted the nonelected invention from the claims.

The currently amended claims 1-21, 23 and newly added claims 24-33 are subject to the following new grounds of rejection:

(i)

Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Please note that claim 24 is self conflicting. Claim 24 is a "pharmaceutical composition" but without an dosage limitation. Since pharmaceutical composition by definition can not be *ineffective* nor *toxic*, it is recommended that the dosage of therapeutically effective amount be incorporated for the active ingredient.

(ii)

Claims 1-21, 23-33 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of copending Application No. 09/485,292. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are subsets of the combination of R8 and R2 as set forth by the proviso but fully embraced in the copending claims.

Please note that the instant claims are drawn to the more limited scope of X being 2-methylthiazolyl or 2-methyl oxazolyl with R2 not being hydrogen, D-E is CH₂CH₂ of the copending claims. There is unjustified right to exclude the same compounds with improper timewise extension.

(iii)

Claims 1-21, 23-33 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 3 of copending Application No. 10/631,011. Although the conflicting claims are not identical, they are not patentably distinct from each other because the species (oxaacyclohexadec-13-ene-2,6-dione, 7-**ethyl**-4,8-

Art Unit: 1625

dihydroxy-5,5,9,13-tetramethyl-16-2-2methyl-4-thizolyl-ethenyl]- compound on p. 11) of the copending claim anticipated the instant genus. The species genus relationship is considered prima facie obvious. There is no justification that an extension of exclusive right should continue through the species and modified genus in a later claim.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Applicants are urged to check all copending claims to ensure clear lines of demarcation of file proper terminal disclaimer. Updated copending status should be provided to the office to avoid double patenting rejections.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
